

## Barry County Opioid Overdose and Bloodborne Infection Resources

Several sources of information were not utilized in the *Missouri Opioid Overdose and Bloodborne Infection Vulnerability Assessments - 2020*. This was primarily due to lack of information available for every county or difficulty incorporating the information into the methodology. However, this information could still be of value for identifying the resources available and challenges the community faces, as well as determining what next steps should be taken.

Barry County			
Providers Licensed to Administer Buprenorphine (2020) <sup>1</sup>	6	High Intensity Drug Trafficking Area (HIDTA) <sup>2</sup>	No
Year Joined St. Louis County Prescription Drug Monitoring Program (PDMP) <sup>3</sup>	2018	Counties with Interstates <sup>4</sup>	No
Schedule II-IV Controlled Substance Dispensation Rate (2018) <sup>5</sup>	619.3 per 1,000 population	Facilities Providing Substance Abuse Services (2020) <sup>6</sup>	3

### NOTES:

- The *Missouri Opioid Overdose and Bloodborne Infection Vulnerability Assessments – 2020* report is available at <http://www.health.mo.gov/data/opioids/assessments.php>.
- The information and resources included were obtained from the noted sources on the dates listed. Updates of the data sources following the access dates listed are not reflected. The Missouri Department of Health and Senior Services does not maintain some of the resources listed in this fact sheet and is not responsible for their content or accuracy.
- Additional resources may be located in nearby counties or border states. Please refer to profiles for neighboring Missouri counties or to the original data sources listed in the References section to determine if other resources are available within the region.
- This list of resources is not intended to be comprehensive. For example, some services such as STD testing may also be offered by specific physicians or organizations. DHSS advises calling ahead to determine if services are still offered and consulting with medical providers regarding the types of services offered. The Centers for Disease Control and Prevention offers a searchable directory of HIV, STD, and Hepatitis testing providers at <https://gettested.cdc.gov/>.

### NOTES:

- The *Missouri Opioid Overdose and Bloodborne Infection Vulnerability Assessments – 2020* report is available at <http://www.health.mo.gov/data/opioids/assessments.php>.
- The information and resources included were obtained from the noted sources on the dates listed. Updates of the data sources following the access dates listed are not reflected. The Missouri Department of Health and Senior Services does not maintain some of the resources listed in this fact sheet and is not responsible for their content or accuracy.
- Additional resources may be located in nearby counties or border states. Please refer to profiles for neighboring Missouri counties or to the original data sources listed in the References section to determine if other resources are available within the region.
- This list of resources is not intended to be comprehensive. For example, some services such as STD testing may also be offered by specific physicians or organizations. DHSS advises calling ahead to determine if services are still offered and consulting with medical providers regarding the types of services offered. The Centers for Disease Control and Prevention offers a searchable directory of HIV, STD, and Hepatitis testing providers at <https://gettested.cdc.gov/>.

## Butler County Opioid Overdose and Bloodborne Infection Resources

Several sources of information were not utilized in the *Missouri Opioid Overdose and Bloodborne Infection Vulnerability Assessments - 2020*. This was primarily due to lack of information available for every county or difficulty incorporating the information into the methodology. However, this information could still be of value for identifying the resources available and challenges the community faces, as well as determining what next steps should be taken.

## NOTES:

- The *Missouri Opioid Overdose and Bloodborne Infection Vulnerability Assessments – 2020* report is available at <http://www.health.mo.gov/data/opioids/assessments.php>.
- The information and resources included were obtained from the noted sources on the dates listed. Updates of the data sources following the access dates listed are not reflected. The Missouri Department of Health and Senior Services does not maintain some of the resources listed in this fact sheet and is not responsible for their content or accuracy.
- Additional resources may be located in nearby counties or border states. Please refer to profiles for neighboring Missouri counties or to the original data sources listed in the References section to determine if other resources are available within the region.
- This list of resources is not intended to be comprehensive. For example, some services such as STD testing may also be offered by specific physicians or organizations. DHSS advises calling ahead to determine if services are still offered and consulting with medical providers regarding the types of services offered. The Centers for Disease Control and Prevention offers a searchable directory of HIV, STD, and Hepatitis testing providers at <https://gettested.cdc.gov/>.

## Dent County Opioid Overdose and Bloodborne Infection Resources

Several sources of information were not utilized in the *Missouri Opioid Overdose and Bloodborne Infection Vulnerability Assessments - 2020*. This was primarily due to lack of information available for every county or difficulty incorporating the information into the methodology. However, this information could still be of value for identifying the resources available and challenges the community faces, as well as determining what next steps should be taken.

Dent County			
Providers Licensed to Administer Buprenorphine (2020) <sup>1</sup>	6	High Intensity Drug Trafficking Area (HIDTA) <sup>2</sup>	No

## NOTES:

- The *Missouri Opioid Overdose and Bloodborne Infection Vulnerability Assessments – 2020* report is available at <http://www.health.mo.gov/data/opioids/assessments.php>.
- The information and resources included were obtained from the noted sources on the dates listed. Updates of the data sources following the access dates listed are not reflected. The Missouri Department of Health and Senior Services does not maintain some of the resources listed in this fact sheet and is not responsible for their content or accuracy.
- Additional resources may be located in nearby counties or border states. Please refer to profiles for neighboring Missouri counties or to the original data sources listed in the References section to determine if other resources are available within the region.
- This list of resources is not intended to be comprehensive. For example, some services such as STD testing may also be offered by specific physicians or organizations. DHSS advises calling ahead to determine if services are still offered and consulting with medical providers regarding the types of services offered. The Centers for Disease Control and Prevention offers a searchable directory of HIV, STD, and Hepatitis testing providers at <https://gettested.cdc.gov/>.

## Greene County Opioid Overdose and Bloodborne Infection Resources

Several sources of information were not utilized in the *Missouri Opioid Overdose and Bloodborne Infection Vulnerability Assessments - 2020*. This was primarily due to lack of information available for every county or difficulty incorporating the information into the methodology. However, this information could still be of value for identifying the resources available and challenges the community faces, as well as determining what next steps should be taken.

Greene County			
Providers Licensed to Administer Buprenorphine (2020) <sup>1</sup>	74	High Intensity Drug Trafficking Area (HIDTA) <sup>2</sup>	Yes
Year Joined St. Louis County Prescription Drug Monitoring Program (PDMP) <sup>3</sup>	2017	Counties with Interstates <sup>4</sup>	Yes

## Henry County Opioid Overdose and Bloodborne Infection Resources

Several sources of information were not utilized in the *Missouri Opioid Overdose and Bloodborne Infection Vulnerability Assessments - 2020*. This was primarily due to lack of information available for every county or difficulty incorporating the information into the methodology. However, this information could still be of value for identifying the resources available and challenges the community faces, as well as determining what next steps should be taken.

Henry County			
Providers Licensed to Administer Buprenorphine (2020) <sup>1</sup>	17	High Intensity Drug Trafficking Area (HIDTA) <sup>2</sup>	No

## Iron County Opioid Overdose and Bloodborne Infection Resources

Several sources of information were not utilized in the *Missouri Opioid Overdose and Bloodborne Infection Vulnerability Assessments - 2020*. This was primarily due to lack of information available for every county or difficulty incorporating the information into the methodology. However, this information could still be of value for identifying the resources available and challenges the community faces, as well as determining what next steps should be taken.

Iron County			
Providers Licensed to Administer Buprenorphine (2020) <sup>1</sup>	1	High Intensity Drug Trafficking Area (HIDTA) <sup>2</sup>	No
Year Joined St. Louis County Prescription Drug Monitoring Program (PDMP) <sup>3</sup>	2018	Counties with Interstates <sup>4</sup>	No
Schedule II-IV Controlled Substance Dispensation Rate (2018) <sup>5</sup>	1,499.1 per 1,000 population	Facilities Providing Substance Abuse Services (2019) <sup>6</sup>	1

## NOTES:

- The *Missouri Opioid Overdose and Bloodborne Infection Vulnerability Assessments – 2020* report is available at <http://www.health.mo.gov/data/opioids/assessments.php>.
- The information and resources included were obtained from the noted sources on the dates listed. Updates of the data sources following the access dates listed are not reflected. The Missouri Department of Health and Senior Services does not maintain some of the resources listed in this fact sheet and is not responsible for their content or accuracy.
- Additional resources may be located in nearby counties or border states. Please refer to profiles for neighboring Missouri counties or to the original data sources listed in the References section to determine if other resources are available within the region.
- This list of resources is not intended to be comprehensive. For example, some services such as STD testing may also be offered by specific physicians or organizations. DHSS advises calling ahead to determine if services are still offered and consulting with medical providers regarding the types of services offered. The Centers for Disease Control and Prevention offers a searchable directory of HIV, STD, and Hepatitis testing providers at <https://gettested.cdc.gov/>.

## Madison County Opioid Overdose and Bloodborne Infection Resources

Several sources of information were not utilized in the *Missouri Opioid Overdose and Bloodborne Infection Vulnerability Assessments - 2020*. This was primarily due to lack of information available for every county or difficulty incorporating the information into the methodology. However, this information could still be of value for identifying the resources available and challenges the community faces, as well as determining what next steps should be taken.

Madison County			
Providers Licensed to Administer Buprenorphine (2020) <sup>1</sup>	0	High Intensity Drug Trafficking Area (HIDTA) <sup>2</sup>	No
Year Joined St. Louis County Prescription Drug Monitoring Program (PDMP) <sup>3</sup>	2017	Counties with Interstates <sup>4</sup>	No
Schedule II-IV Controlled Substance Dispensation Rate (2018) <sup>5</sup>	2,288.6 per 1,000 population	Facilities Providing Substance Abuse Services (2020) <sup>6</sup>	1
Permanent Medication Drop Box Locations <sup>7</sup>	Fredericktown Police Department	Facilities Providing Some Medication Assisted Treatment (2020) <sup>8</sup>	1
Drug Courts <sup>9</sup>	Adult Treatment Court		

Sexually Transmitted Disease (STD) Testing <sup>10</sup>	Human Immunodeficiency Virus (HIV) Testing <sup>11</sup>	Viral Hepatitis C Testing <sup>12</sup>	Mental Health Providers [Including Department of Mental Health Comprehensive Substance Treatment and Rehabilitation (CSTAR) Services/Medical Assisted Therapy (MAT)] <sup>13</sup>	Medical Providers <sup>14</sup>	Homeless Shelters and Transitional Housing <sup>15</sup>	Hospitals <sup>16</sup>	Naloxone <sup>17</sup>
Madison County Health Department	Butler County Health Department	Hep C Alliance	Accredited Traffic Offender Services	Madison County Health Department; Rural Health Clinics (2)	None in county	Madison Medical Center in Fredericktown	Pharmacies and locations specified in next table

## Madison County

### NOTES:

- The *Missouri Opioid Overdose and Bloodborne Infection Vulnerability Assessments – 2020* report is available at <http://www.health.mo.gov/data/opioids/assessments.php>.
- The information and resources included were obtained from the noted sources on the dates listed. Updates of the data sources following the access dates listed are not reflected. The Missouri Department of Health and Senior Services does not maintain some of the resources listed in this fact sheet and is not responsible for their content or accuracy.
- Additional resources may be located in nearby counties or border states. Please refer to profiles for neighboring Missouri counties or to the original data sources listed in the References section to determine if other resources are available within the region.
- This list of resources is not intended to be comprehensive. For example, some services such as STD testing may also be offered by specific physicians or organizations. DHSS advises calling ahead to determine if services are still offered and consulting with medical providers regarding the types of services offered. The Centers for Disease Control and Prevention offers a searchable directory of HIV, STD, and Hepatitis testing providers at <https://gettested.cdc.gov/>.

## Marion County Opioid Overdose and Bloodborne Infection Resources

Several sources of information were not utilized in the *Missouri Opioid Overdose and Bloodborne Infection Vulnerability Assessments - 2020*. This was primarily due to lack of information available for every county or difficulty incorporating the information into the methodology. However, this information could still be of value for identifying the resources available and challenges the community faces, as well as determining what next steps should be taken.

Marion County			
Providers Licensed to Administer Buprenorphine (2020) <sup>1</sup>	9	High Intensity Drug Trafficking Area (HIDTA) <sup>2</sup>	Yes
Year Joined St. Louis County Prescription Drug Monitoring Program (PDMP) <sup>3</sup>	Not a member	Counties with Interstates <sup>4</sup>	No

## NOTES:

- The *Missouri Opioid Overdose and Bloodborne Infection Vulnerability Assessments – 2020* report is available at <http://www.health.mo.gov/data/opioids/assessments.php>.
- The information and resources included were obtained from the noted sources on the dates listed. Updates of the data sources following the access dates listed are not reflected. The Missouri Department of Health and Senior Services does not maintain some of the resources listed in this fact sheet and is not responsible for their content or accuracy.
- Additional resources may be located in nearby counties or border states. Please refer to profiles for neighboring Missouri counties or to the original data sources listed in the References section to determine if other resources are available within the region.
- This list of resources is not intended to be comprehensive. For example, some services such as STD testing may also be offered by specific physicians or organizations. DHSS advises calling ahead to determine if services are still offered and consulting with medical providers regarding the types of services offered. The Centers for Disease Control and Prevention offers a searchable directory of HIV, STD, and Hepatitis testing providers at <https://gettested.cdc.gov/>.

### NOTES:

- The *Missouri Opioid Overdose and Bloodborne Infection Vulnerability Assessments – 2020* report is available at <http://www.health.mo.gov/data/opioids/assessments.php>.
- The information and resources included were obtained from the noted sources on the dates listed. Updates of the data sources following the access dates listed are not reflected. The Missouri Department of Health and Senior Services does not maintain some of the resources listed in this fact sheet and is not responsible for their content or accuracy.
- Additional resources may be located in nearby counties or border states. Please refer to profiles for neighboring Missouri counties or to the original data sources listed in the References section to determine if other resources are available within the region.
- This list of resources is not intended to be comprehensive. For example, some services such as STD testing may also be offered by specific physicians or organizations. DHSS advises calling ahead to determine if services are still offered and consulting with medical providers regarding the types of services offered. The Centers for Disease Control and Prevention offers a searchable directory of HIV, STD, and Hepatitis testing providers at <https://gettested.cdc.gov/>.

## Phelps County Opioid Overdose and Bloodborne Infection Resources

Several sources of information were not utilized in the *Missouri Opioid Overdose and Bloodborne Infection Vulnerability Assessments - 2020*. This was primarily due to lack of information available for every county or difficulty incorporating the information into the methodology. However, this information could still be of value for identifying the resources available and challenges the community faces, as well as determining what next steps should be taken.

## NOTES:

- The *Missouri Opioid Overdose and Bloodborne Infection Vulnerability Assessments – 2020* report is available at <http://www.health.mo.gov/data/opioids/assessments.php>.
- The information and resources included were obtained from the noted sources on the dates listed. Updates of the data sources following the access dates listed are not reflected. The Missouri Department of Health and Senior Services does not maintain some of the resources listed in this fact sheet and is not responsible for their content or accuracy.
- Additional resources may be located in nearby counties or border states. Please refer to profiles for neighboring Missouri counties or to the original data sources listed in the References section to determine if other resources are available within the region.
- This list of resources is not intended to be comprehensive. For example, some services such as STD testing may also be offered by specific physicians or organizations. DHSS advises calling ahead to determine if services are still offered and consulting with medical providers regarding the types of services offered. The Centers for Disease Control and Prevention offers a searchable directory of HIV, STD, and Hepatitis testing providers at <https://gettested.cdc.gov/>.

## Pulaski County Opioid Overdose and Bloodborne Infection Resources

Several sources of information were not utilized in the *Missouri Opioid Overdose and Bloodborne Infection Vulnerability Assessments - 2020*. This was primarily due to lack of information available for every county or difficulty incorporating the information into the methodology. However, this information could still be of value for identifying the resources available and challenges the community faces, as well as determining what next steps should be taken.

Pulaski County			
Providers Licensed to Administer Buprenorphine (2020) <sup>1</sup>	6	High Intensity Drug Trafficking Area (HIDTA) <sup>2</sup>	No
Year Joined St. Louis County Prescription Drug Monitoring Program (PDMP) <sup>3</sup>	Not a member	Counties with Interstates <sup>4</sup>	Yes

- The information and resources included were obtained from the noted sources on the dates listed. Updates of the data sources following the access dates listed are not reflected. The Missouri Department of Health and Senior Services does not maintain some of the resources listed in this fact sheet and is not responsible for their content or accuracy.
- Additional resources may be located in nearby counties or border states. Please refer to profiles for neighboring Missouri counties or to the original data sources listed in the References section to determine if other resources are available within the region.
- This list of resources is not intended to be comprehensive. For example, some services such as STD testing may also be offered by specific physicians or organizations. DHSS advises calling ahead to determine if services are still offered and consulting with medical providers regarding the types of services offered. The Centers for Disease Control and Prevention offers a searchable directory of HIV, STD, and Hepatitis testing providers at <https://gettested.cdc.gov/>.

## St. Clair County Opioid Overdose and Bloodborne Infection Resources

Several sources of information were not utilized in the *Missouri Opioid Overdose and Bloodborne Infection Vulnerability Assessments - 2020*. This was primarily due to lack of information available for every county or difficulty incorporating the information into the methodology. However, this information could still be of value for identifying the resources available and challenges the community faces, as well as determining what next steps should be taken.

- The *Missouri Opioid Overdose and Bloodborne Infection Vulnerability Assessments – 2020* report is available at <http://www.health.mo.gov/data/opioids/assessments.php>.
- The information and resources included were obtained from the noted sources on the dates listed. Updates of the data sources following the access dates listed are not reflected. The Missouri Department of Health and Senior Services does not maintain some of the resources listed in this fact sheet and is not responsible for their content or accuracy.

- Additional resources may be located in nearby counties or border states. Please refer to profiles for neighboring Missouri counties or to the original data sources listed in the References section to determine if other resources are available within the region.
- This list of resources is not intended to be comprehensive. For example, some services such as STD testing may also be offered by specific physicians or organizations. DHSS advises calling ahead to determine if services are still offered and consulting with medical providers regarding the types of services offered. The Centers for Disease Control and Prevention offers a searchable directory of HIV, STD, and Hepatitis testing providers at <https://gettested.cdc.gov/>.

## St. Louis City Opioid Overdose and Bloodborne Infection Resources

Several sources of information were not utilized in the *Missouri Opioid Overdose and Bloodborne Infection Vulnerability Assessments - 2020*. This was primarily due to lack of information available for every county or difficulty incorporating the information into the methodology. However, this information could still be of value for identifying the resources available and challenges the community faces, as well as determining what next steps should be taken.

### NOTES:

- The *Missouri Opioid Overdose and Bloodborne Infection Vulnerability Assessments – 2020* report is available at <http://www.health.mo.gov/data/opioids/assessments.php>.
- The information and resources included were obtained from the noted sources on the dates listed. Updates of the data sources following the access dates listed are not reflected. The Missouri Department of Health and Senior Services does not maintain some of the resources listed in this fact sheet and is not responsible for their content or accuracy.
- Additional resources may be located in nearby counties or border states. Please refer to profiles for neighboring Missouri counties or to the original data sources listed in the References section to determine if other resources are available within the region.
- This list of resources is not intended to be comprehensive. For example, some services such as STD testing may also be offered by specific physicians or organizations. DHSS advises calling ahead to determine if services are still offered and consulting with medical providers regarding the types of services offered. The Centers for Disease Control and Prevention offers a searchable directory of HIV, STD, and Hepatitis testing providers at <https://gettested.cdc.gov/>.

## Stone County Opioid Overdose and Bloodborne Infection Resources

Several sources of information were not utilized in the *Missouri Opioid Overdose and Bloodborne Infection Vulnerability Assessments - 2020*. This was primarily due to lack of information available for every county or difficulty incorporating the information into the methodology. However, this information could still be of value for identifying the resources available and challenges the community faces, as well as determining what next steps should be taken.

## Taney County Opioid Overdose and Bloodborne Infection Resources

Several sources of information were not utilized in the *Missouri Opioid Overdose and Bloodborne Infection Vulnerability Assessments - 2020*. This was primarily due to lack of information available for every county or difficulty incorporating the information into the methodology. However, this information could still be of value for identifying the resources available and challenges the community faces, as well as determining what next steps should be taken.

Taney County			
Providers Licensed to Administer Buprenorphine (2020) <sup>1</sup>	8	High Intensity Drug Trafficking Area (HIDTA) <sup>2</sup>	No

### NOTES:

- The *Missouri Opioid Overdose and Bloodborne Infection Vulnerability Assessments – 2020* report is available at <http://www.health.mo.gov/data/opioids/assessments.php>.
- The information and resources included were obtained from the noted sources on the dates listed. Updates of the data sources following the access dates listed are not reflected. The Missouri Department of Health and Senior Services does not maintain some of the resources listed in this fact sheet and is not responsible for their content or accuracy.
- Additional resources may be located in nearby counties or border states. Please refer to profiles for neighboring Missouri counties or to the original data sources listed in the References section to determine if other resources are available within the region.
- This list of resources is not intended to be comprehensive. For example, some services such as STD testing may also be offered by specific physicians or organizations. DHSS advises calling ahead to determine if services are still offered and consulting with medical providers regarding the types of services offered. The Centers for Disease Control and Prevention offers a searchable directory of HIV, STD, and Hepatitis testing providers at <https://gettested.cdc.gov/>.

## Washington County Opioid Overdose and Bloodborne Infection Resources

Several sources of information were not utilized in the *Missouri Opioid Overdose and Bloodborne Infection Vulnerability Assessments - 2020*. This was primarily due to lack of information available for every county or difficulty incorporating the information into the methodology. However, this information could still be of value for identifying the resources available and challenges the community faces, as well as determining what next steps should be taken.

Washington County			
Providers Licensed to Administer Buprenorphine (2020) <sup>1</sup>	9	High Intensity Drug Trafficking Area (HIDTA) <sup>2</sup>	No

## NOTES:

- The *Missouri Opioid Overdose and Bloodborne Infection Vulnerability Assessments – 2020* report is available at <http://www.health.mo.gov/data/opioids/assessments.php>.
- The information and resources included were obtained from the noted sources on the dates listed. Updates of the data sources following the access dates listed are not reflected. The Missouri Department of Health and Senior Services does not maintain some of the resources listed in this fact sheet and is not responsible for their content or accuracy.
- Additional resources may be located in nearby counties or border states. Please refer to profiles for neighboring Missouri counties or to the original data sources listed in the References section to determine if other resources are available within the region.
- This list of resources is not intended to be comprehensive. For example, some services such as STD testing may also be offered by specific physicians or organizations. DHSS advises calling ahead to determine if services are still offered and consulting with medical providers regarding the types of services offered. The Centers for Disease Control and Prevention offers a searchable directory of HIV, STD, and Hepatitis testing providers at <https://gettested.cdc.gov/>.

## Wright County Opioid Overdose and Bloodborne Infection Resources

Several sources of information were not utilized in the *Missouri Opioid Overdose and Bloodborne Infection Vulnerability Assessments - 2020*. This was primarily due to lack of information available for every county or difficulty incorporating the information into the methodology. However, this information could still be of value for identifying the resources available and challenges the community faces, as well as determining what next steps should be taken.

Wright County			
Providers Licensed to Administer Buprenorphine (2020) <sup>1</sup>	0	High Intensity Drug Trafficking Area (HIDTA) <sup>2</sup>	No
Year Joined St. Louis County Prescription Drug Monitoring Program (PDMP) <sup>3</sup>	Not a member	Counties with Interstates <sup>4</sup>	No

Rehab	Family Counseling Center Inc.	219 E 2nd St	Mountain Grove	MO	65711	417-926-1500	<a href="https://www.freerehabcenters.org/details/family-counseling-center-inc">https://www.freerehabcenters.org/details/family-counseling-center-inc</a>
Naloxone	Missouri has a standing order authorizing any pharmacist practicing in the state of Missouri to dispense or sell certain naloxone products to specific persons ( <a href="https://health.mo.gov/data/opioids/pdf/naloxone-standing-order.pdf">https://health.mo.gov/data/opioids/pdf/naloxone-standing-order.pdf</a> ). NOTE: Please call ahead to ask if naloxone is in stock.						

### NOTES:

- The *Missouri Opioid Overdose and Bloodborne Infection Vulnerability Assessments – 2020* report is available at <http://www.health.mo.gov/data/opioids/assessments.php>.
- The information and resources included were obtained from the noted sources on the dates listed. Updates of the data sources following the access dates listed are not reflected. The Missouri Department of Health and Senior Services does not maintain some of the resources listed in this fact sheet and is not responsible for their content or accuracy.
- Additional resources may be located in nearby counties or border states. Please refer to profiles for neighboring Missouri counties or to the original data sources listed in the References section to determine if other resources are available within the region.
- This list of resources is not intended to be comprehensive. For example, some services such as STD testing may also be offered by specific physicians or organizations. DHSS advises calling ahead to determine if services are still offered and consulting with medical providers regarding the types of services offered. The Centers for Disease Control and Prevention offers a searchable directory of HIV, STD, and Hepatitis testing providers at <https://gettested.cdc.gov/>.
